RE: Hearing Aid Coverage; SB 2439

Dear Senator Kanuha:

On behalf of the American Speech-Language-Hearing Association, I write to express support for SB 2439, which requires individual and group accident and health or sickness insurance policies that are issued or renewed after December 31, 2022, to cover the cost of hearing aids for provide policyholder and covered individuals.

The American Speech-Language-Hearing Association (ASHA) is the national professional, scientific, and credentialing association for 218,000 members and affiliates who are audiologists; speech-language pathologists; speech, language, and hearing scientists; audiology and speech-language pathology support personnel; and students. Over 500 ASHA members reside in Hawaii.¹

ASHA supports SB 2439, which also specifies that hearing aid purchases will be subject to a minimum benefit of \$1,500 per hearing impaired ear every 36 months.

Senate Bill 2439 provides critical support for reducing instances of untreated hearing loss. Studies have linked untreated hearing loss to many social and economic factors, including depression, withdrawal from social situations, reduced alertness and increased risk to personal safety, impaired memory and ability to learn new tasks, reduced job performance and earning potential, and diminished psychological and overall health.² Approximately 15% of school-age children have some degree of hearing loss in one or both ears, with 5.4% (or about 1 in 20) having less severe or unilateral hearing loss.³ Academic achievement and social functioning are significantly impacted by even a mild to moderate hearing loss, which may bring about difficulty in learning and building important interpersonal skills necessary to healthy self-esteem. In fact, over one-third of children with less severe or unilateral hearing loss are projected to fail at least one grade or will require additional educational support, which is estimated to cost the education system over \$5.5 billion.⁴

Thank you for helping to improve hearing health care coverage for the citizens of Hawaii. If you or your staff have any questions, please contact Eileen Crowe, ASHA's director, state association relations, at ecrowe@asha.org.

Sincerely,

Judy Rich, EdD, CCC-SLP, BCS-CL
2022 ASHA President
