

**National Summary Report: Descriptive Statistics of PRAXIS Examination Scores for the
Audiology Specialty Test for Test Administration Years 2004-2005 through 2014-2015**

The following tables present descriptive statistics on the PRAXIS audiology test for all exam participants (Table 1) and for those individuals who have earned a bachelor's degree plus additional credits, earned a master's degree, earned a master's degree plus additional credits, or earned a doctoral degree (Table 2) for test administration years 2004-2005 through 2014-2015 and who have identified ASHA as a score recipient.

Table 1. Audiology – All Exam Participants (Includes all scores from multiple test takers)							
Test Year	Count	Mean	Standard Deviation	Pass		Fail	
				Count	Percentage	Count	Percentage
2014-2015	687	174	11	479	69.7%	208	30.3%
2013-2014	705	173	11	446	63.3%	259	36.7%
2012-2013	832	634/171*	106/12*	484	58.2%	348	41.8%
2011-2012	748	641	112**	424	56.7%	324	43.3%
2010-2011	575	638	32	514	89.4%	61	10.6%
2009-2010	585	642	34	532	90.9%	53	9.1%
2008-2009	523	641	34	469	89.7%	54	10.3%
2007-2008	500	635	37	431	86.2%	69	13.8%
2006-2007	471	635	37	389	82.6%	82	17.4%
2005-2006	492	631	39	400	81.3%	92	18.7%
2004-2005	541	625	39	404	74.7%	137	25.3%

Table 2. Audiology – Only exam participants who reported their educational level and who have earned a bachelor's degree plus additional credits, earned a master's degree, earned a master's degree plus additional credits, or earned a doctoral degree (Includes all scores from multiple test takers)							
Test Year	Count	Mean	Standard Deviation	Pass		Fail	
				Count	Percentage	Count	Percentage
2014-2015	365	174	11	249	68.2%	116	31.8%
2013-2014	368	172	11	230	62.5%	138	37.5%
2012-2013	453	630/172*	111/12*	264	58.3%	189	41.7%
2011-2012	407	645	118**	238	58.5%	169	41.5%
2010-2011	421	637	33	376	89.3%	45	10.7%
2009-2010	449	642	35	407	90.6%	42	9.4%
2008-2009	394	640	34	353	89.6%	41	10.4%
2007-2008	366	635	37	319	87.2%	47	12.8%
2006-2007	354	636	37	292	82.5%	62	17.5%
2005-2006	284***	628	41	227	79.9%	57	20.1%
2004-2005	425	624	39	315	74.1%	110	25.9%

*ETS implemented a new scaled score range for the audiology exam in January 2013. The new scaled score range of 100-200 has a passing score of 170. The old score range was 250 to 990 with a passing score of 600. The means and standard deviations for both exams administered during the 2012-2013 test year are presented in this report. Beginning with the 2013-2014 test year, the means and standard deviations only reflect the new scaled score range of 100-200.

**The Audiology Praxis exam was significantly revised between the 2010-2011 and 2011-2012 test years. This resulted in a much broader distribution of scores and associated increase in the standard deviation.

***The count of individuals decreased between 2004-2005 and 2005-2006 primarily because of the number of individuals who did not report their level of education. In 2004-2005, 12% of the population did not report their level of education; the percentage was 4%-5% in prior years. That percentage increased to 30% for the 2005-2006 testing period. ETS has verified that there are larger numbers of candidates in general who are not completing the biographical information questions when they register.

Prepared by the American Speech-Language-Hearing Association (ASHA), Surveys and Analysis Unit (January 2016)
