The Willard R. Zemlin Lecture in Speech Science commemorates the life and work of the late Willard R. Zemlin, who made significant contributions to communication sciences through his texts detailing the anatomy and physiology of the speech and hearing mechanism. The intent of the Zemlin Lecture is to honor an individual who has demonstrated a record of outstanding contribution to the broad spectrum of issues concerning speech science. This memorial lecture is an annual event at the ASHA convention, co-sponsored by Pearson and ASHA SIG 5.
