*ETS implemented a new scaled score range for the audiology exam in January 2013. The new scaled score range of 100200 has a passing score of 170 . The old score range was 250 to 990 with a passing score of 600 . The means and standard deviations for both exams administered during the 2012-2013 test year are presented in this report. Beginning with the 2013-2014 test year, the means and standard deviations only reflect the new scaled score range of 100-200.
**The Audiology Praxis exam was significantly revised between the 2010-2011 and 2011-2012 test years. This resulted in a much broader distribution of scores and associated increase in the standard deviation.
