NOMS Admission Patient-Reported Outcome (PRO) Form
Communicative Participation Item Bank (CPIB)
Age Range: 18+

CPIB Instructions: The following questions describe a variety of situations in which you might need to interact with others. For each question, please mark how much your condition interferes with your participation in that situation. By “condition”, we mean ALL issues that may affect how you communicate in these situations including speech conditions, any other health conditions, or features of the environment. If your condition varies, think about an AVERAGE day, not your best or worst days. If proxy, please answer the following questions based on what you think your family member would say.
