The Honorable Ryan I. Yamane
Chair, House Committee on Health and Human Services
415 South Beretania Street, Room 420
Honolulu, HI 96813

RE: Hearing Aid Coverage; HB 839

Dear Representative Yamane:

On behalf of the American Speech-Language-Hearing Association, I write to express support for HB 839, which requires individual and group accident and health or sickness insurance policies that were issued or renewed in the state after December 31, 2021, to cover the cost of hearing aids for the policyholder and covered individuals.

The American Speech-Language-Hearing Association (ASHA) is the national professional, scientific, and credentialing association for 218,000 members and affiliates who are audiologists; speech-language pathologists; speech, language, and hearing scientists; audiology and speech-language pathology support personnel; and students. Over 500 ASHA members reside in Hawaii.¹

ASHA supports HB 839, which also specifies that hearing aid purchases are subject to a minimum benefit of \$1,500 per hearing-impaired ear every 36 months.

House Bill 839 provides critical support for reducing instances of untreated hearing loss. Studies have linked untreated hearing loss to many social and economic factors, including depression, withdrawal from social situations, reduced alertness and increased risk to personal safety, impaired memory and ability to learn new tasks, reduced job performance and earning potential, and diminished psychological and overall health.² Approximately 15% of school-age children have some degree of hearing loss in one or both ears, with 5.4% (or about 1 in 20) having less severe or unilateral hearing loss.³ Academic achievement and social functioning are significantly impacted by even a mild to moderate hearing loss, which may bring about difficulty in learning and building important interpersonal skills necessary to healthy self-esteem. In fact, over one-third of children with less severe or unilateral hearing loss are projected to fail at least one grade or will require additional educational support, which is estimated to cost the educational system over \$5.5 billion.⁴

Thank you for helping to ensure that the citizens of Hawaii have access to hearing aids, which will help them participate in daily living activities and improve their ability to engage in social interaction. If you or your staff have any questions, please contact Eileen Crowe, ASHA's director, state association relations, at ecrowe@asha.org.

Sincerely,

A handwritten signature in black ink that reads "Judy Rich". The signature is written in a cursive, flowing style.

Judy Rich, EdD, CCC-SLP, BCS-CL
2022 ASHA President
